Dear colleagues and friends,

I am very pleased to have the opportunity to invite you to the Arthro Symposium 2011 in České Budějovice, the fifth gathering of arthroscopic surgeons from Czech Republic.

While past symposiums have focused on knee and shoulder lesion treatments, the upcoming symposium will concentrate on hip, ankle and foot arthroscopy, an area we consider to have immense potential.

I am delighted to say that many skilled specialists have promised to take part in the symposium, and will present a series of lectures related to hip, ankle and foot arthroscopy. Additionally, live surgeries performed by experienced surgeons have been organized so as to highlight a number of interesting cases and surgical procedures. We are confident that these live surgeries will be of great interest to you.

The symposium's program will begin on Thursday with presentations dedicated to newest developments and current concepts in hip arthroscopy, and will continue on Friday with a program focused on ankle and foot arthroscopy.

As in past years, the symposium is organized by the Central European Educational Centre (CEEC) at the Orthopedic Department of the České Budějovice Hospital in cooperation with Mitek. This year we will also welcome the involvement of the Czech Society for Foot and Ankle Surgery.

After a two-year break, we are very much looking forward to seeing you again in České Budějovice.

Pavel Sadovsky, MD

Program of the Symposium

Thursday 5th May, 2011

8:00	Opening and welcome
8:30 – 12:15	Live surgeries
	HIP ASK – live surgery 1
